

KIT BENEFITS

KP33900A **TH700R4 (4L60) 1982-93**

OUR KIT CONTAINS:

1. Pump support screen
2. Late style Vamac® (yellow stripe) front pump lathe cut seal
3. All OEM lip seals.
4. Sub packaged 2-4 servo piston and cover orings (color-coded) with instructions.
5. Teflon coated pump bolt orings
6. Throttle valve spring to improve the release of the throttle valve
7. 2-4 servo spring to replace original fatigued spring. A fatigued spring can prevent the 2-4 band from fully releasing on a 4-3 downshift, thereby causing it to burn.
8. 9 pcs. 1/4" steel valve body check balls.
