

AOD (FIOD) UPDATE

IT HAS BEEN RECENTLY BROUGHT TO OUR ATTENTION THAT IN 1993, THE LAST YEAR FOR THE AOD UNIT, THE 2/3 ACCUMULATOR PISTON USED IN SOME UNITS WAS THE AODE ALUMINUM VERSION. WHILE THIS IS VERY ISOLATED, WE FELT IT BEST TO ADD THE RESPECTIVE ALUMINUM PISTON "O" RINGS INTO OUR AOD KITD.

P.I. PART NUMBERS:

K37900-1

K37900-1-MD

WITH A DATE CODE OF 97080 AND LATER WILL CONTAIN THESE TWO ADDITIONAL "O" RINGS.
