

KIT BENEFITS

KP13900/X **45RFE 1999-03**

OUR KIT CONTAINS:

1. Aftermarket pan gasket where OE silicone is used
2. Pump cover inner & outer seals
3. V/B, center support and Rev/OD clutch orifice screens
4. Nickel/tin stator support sealing rings
5. V/B solenoid pack screen
6. Torlon VB check balls
7. Output shaft support spline seal
8. Solenoid orings
9. Steel check balls for actuator valves in solenoid pack
10. Solenoid pressure switch cup seals and springs
11. Both filter tube to case and dipstick to filler tube grommet (late design)
12. Metal Clad seals for extension housing (2WD) as well as adapter housing (4WD)
13. Parts are sub packed for ease of location
14. Input shaft drain back capsule oring
15. Output shaft oring for 2WD
16. Output speed sensor and pressure sensor transducer orings
17. Solenoid actuator valve oring
18. Converter hub oring
19. Solenoid block grommet
20. Accumulator plate and hardened screws. Many times OEM screws will break and accumulator will bend plate
21. Filter retainer clip-special exclusive design to prevent back end of filter from dropping down into pan and causing neck to partially pull out of pump
22. TCC control valve retainer clip
