E4OD

Precision International is pleased to announce the availability of an E4OD kit (1989-95) that includes the following special components:

- 1.) .015 Thick combo Valve Body Gaskets which prevent cross leaks and corrects delays in forward and reverse engagement.
- 2.) Full compliment of 11 Green Check Balls.
- 3.) Bolts for center support and Overdrive Housing.
- 4.) TCC Regulator Spring
- 5.) Viton® Front Pump Seal which solves FP leaks.

This is Precision International part number K36900TV-MD 1989-95
