

October 2005

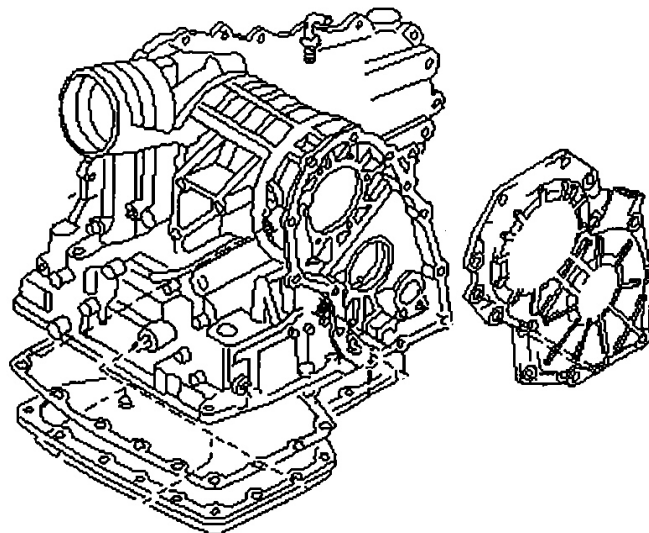

"New Kit Announcement"

K63900J
RE4F04B

Nissan Maxima 1/03-05

At this time Precision International is the only one who has a Kit for this transmission. The Kit comes with or without molded pistons and contains V/B Check Balls. It has OEM comparable material and comes with separate V/B Gaskets (OE has bonded plates). The Kit is also Sub Packaged for ease of location.

****Contact your Precision International Sales Rep for more information!****

THE DESIGNATION CODE FOR THIS TRANSMISSION IS NOT FOUND ON THE UNIT, IT CAN BE FOUND IN DRIVER SIDE DOOR JAM UNDER TRANS TYPE.
