

**G4A-EL/HL
UPDATE**

PRECISION INTERNATIONAL HAS RECENTLY INTRODUCED A COMPLETE LINE OF RE-DESIGNED G4A KITS:

K71900T	1986-4/87
K71900MT	1986-4/87 W/SP* METAL RINGS
K71900CT	5/87-1992
K71900CMT	5/87-1992 W/SP* METAL RINGS
K71900ET	1993-95
K71900EMT	1993-95 W/SP* METAL RINGS

TO CLEAR UP ANY CONFUSION, WE FIND IT IMPORTANT TO LIST THE UPGRADES AND ADDITIONS FOUND IN THESE KITS:

1. FRONT PUMP SEAL- P.I.# 71822 MADE OF VAMAC MATERIAL AND MADE WITH A TALLER CROSS SECTION WHICH FILLS PUMP CAVITY COMPLETELY. THIS SOLVES WALK OUT PROBLEM AND WON'T ALLOW SEAL TO BE DISLODGED DURING CONVERTOR INSTALLATION. THIS IS A P.I. EXCLUSIVE.
2. PUMP PRESSURE PORT SEALS- P.I. HAS MANUFACTURED A ONE PIECE DESIGN SEAL (BOTH EARLY AND LATE VERSIONS). THIS SOLVES PUMP CROSS LEAK PROBLEMS. ANOTHER P.I. EXCLUSIVE.
3. ACCUMULATOR "O" RINGS & "D" RINGS- WHILE OTHER KIT SUPPLIERS HAVE FOLLOWED OUR LEAD, WE ARE STILL THE ONLY COMPANY THAT PRINTS THE PART NUMBER ON THE SEALS AND INCLUDE AN INSTRUCTION SHEET FOR EXACT APPLICATION. ONE MORE P.I. EXCLUSIVE.
4. KITS CONTAIN 2-3 BYPASS SPRING AND TURBINE SHAFT BUSHING.
5. KITS ALSO CONTAIN PRECISION POINTERS. A TECH SHEET THAT SHOWS PRESSURE TESTS, CLEARANCES, TORQUE SPECS, APPLICATIONS AND UPDATES. ALSO SHOWS BUILDER CORRECT WAY TO UPDATE THE SLIDE REGULATOR VALVE AS PER ATRA.
